## The 12th China Ferro-alloys International Conference

May 27-29, 2015 Shangri-La Hotel, Qingdao, China

**The 12th China Ferro-alloys International Conference**, co-hosted by China Chamber of Commerce of Metals Minerals & Chemicals Importers & Exporters (CCCMC) & Ferro-alloys.com will be held on **May 27th-29<sup>th</sup>, 2015 in Shangri-La Hotel, Qingdao, China**. China Ferro-alloys International Conference has developed into the key platform to learn policy changes, market trends of Chinese ferroalloys industry. Meanwhile the conference has become the gala where Chinese and foreign entrepreneurs exchange information and negotiate business. The conference with the theme “To Promote Ferroalloy Industry Development under New Normal Economy” will be carried on by speeches, forums, trading negotiation and business tour.

2015 is the last year of the 12th Five-Year Plan and it is also the key time to prepare for the 13th Five-Year Plan. Under New Normal Economy, China’s macro policies will have important impact on all walks of life and it’s overwhelming to comprehensively deepen reform and opening up. As one of the pillar industries, iron & steel business also enters the New Normal characterized by low price, slim profit, overcapacity and weak demand. It’s extremely urgent to break industrial contradiction, explore new development mode, adjust industrial structure and promote reform & innovation. As an important raw material, the development of ferroalloy industry is shackled by macro economy and iron & steel business. Industrial development shows many signs of weakness, including overcapacity, weak demand, sliding export, low price, high cost and reducing profit. Under New Normal Economy, it has become the focus how ferroalloy industry should adjust to adapt to slowing economy and transforming steel industry.

In this situation, CCCMC and Ferro-alloys.com will hold the 12th China Ferro-alloys International Conference. Economic experts, government officials and industrial exports will be invited to the conference. They will lecture on macro economic policy, ferroalloy industry and other topics.

**Participants:** we sincerely welcome the following enterprises to attend the conference, ferro-alloys (also including Si and Mn metal) producers, ferro-alloys traders, Ores (Mn Cr Ni) producers and traders, steel mills, foundry plants, metallurgical equipment manufacturers and service enterprises, Logistics enterprises, institution in all over the world.
